LYMPHATIC SYSTEM MCQS

1. The lymphatic system consists of all the following except:

- a. Blood
- b. lymph nodes
- c. lymphatic vessels
- d. lymph

1. The lymphatic system consists of all the following except:

- a. Blood
- b. lymph nodes
- c. lymphatic vessels
- d. lymph

2. Which of the following applies to the thoracic duct?

- a. it drains the entire body above the diaphragm
- b. it empties its contents into the subclavian vein
- c. it carries blood into the lymphatic system
- d. it arises in the vessels of the brain

2. Which of the following applies to the thoracic duct?

- a. it drains the entire body above the diaphragm
- b. it empties its contents into the subclavian vein
- c. it carries blood into the lymphatic system
- d. it arises in the vessels of the brain

3. Lymphatic capillaries resemble blood capillaries because lymphatic capillaries

- a. have the same permeability as blood capillaries
- b. lead to the vena cava
- c. have a lining of endothelium
- d. are thick-walled tubes

3. Lymphatic capillaries resemble blood capillaries because lymphatic capillaries

- a. have the same permeability as blood capillaries
- b. lead to the vena cava
- c. have a lining of endothelium
- d. are thick-walled tubes

4. The fluid that passes through the lymphatic vessels

- a. Flows toward the lungs
- b. Passes from the lymphatic vessels into the arteries
- c. Enters the left ventricle of the heart through the right thoracic duct
- d. Moves in a single direction toward the heart

4. The fluid that passes through the lymphatic vessels

- a. Flows toward the lungs
- b. Passes from the lymphatic vessels into the arteries
- c. Enters the left ventricle of the heart through the right thoracic duct
- d. Moves in a single direction toward the heart

5. The t-lymphocytes and b-lymphocytes are the major cells of the

- A) Lymph nodes
- B) Lymphatic vessels
- C) Adrenal gland
- D) Thymus

5. The t-lymphocytes and b-lymphocytes are the major cells of the

- A) Lymph nodes
- B) Lymphatic vessels
- C) Adrenal gland
- D) Thymus

6. Lymph nodes may be located in the human body in the tissues of the

- A) stomach and brain
- B) groin and neck
- C) Oventricle and atrium
- D) thyroid gland and adrenal gland

6. Lymph nodes may be located in the human body in the tissues of the

- A) stomach and brain
- B) groin and neck
- C) Oventricle and atrium
- D) thyroid gland and adrenal gland

7. The movement of fluid through the lymphatic vessels is assisted by

- a. pressure from the right ventricle
- b. pressure of contracting skeletal muscles
- c. movement of phagocytes such as macrophages
- d. movement of red blood cells

7. The movement of fluid through the lymphatic vessels is assisted by

- a. pressure from the right ventricle
- b. pressure of contracting skeletal muscles
- c. movement of phagocytes such as macrophages
- d. movement of red blood cells

8. Those lymphatic vessels that are rich in fat

- A) are found only in the brain
- B) are known as lacteals
- C) enter the left atrium of the heart
- D) are found only within the spleen

8. Those lymphatic vessels that are rich in fat

- A) are found only in the brain
- B) are known as lacteals
- C) enter the left atrium of the heart
- D) are found only within the spleen

9. Which of the following is not likely to be found in the lymph?

- A) red blood cells
- B) protein molecules
- C) microorganisms
- D) macrophages

9. Which of the following is not likely to be found in the lymph?

- A) red blood cells
- B) protein molecules
- C) microorganisms
- D) macrophages

10. What is the function of the lymphatic system

- A. Immunity
- B. Transports lipids from GIT to the blood
- C. Drains excess interstitial fluid
- D. All of the above

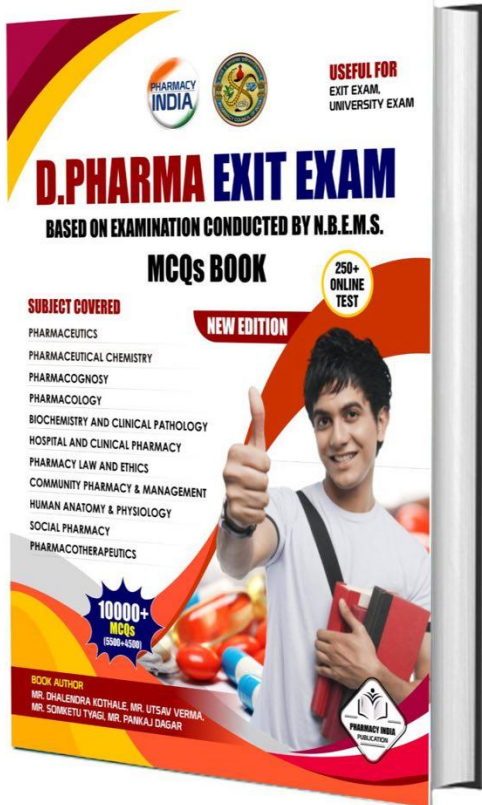

10. What is the function of the lymphatic system

- A. Immunity
- B. Transports lipids from GIT to the blood
- C. Drains excess interstitial fluid
- D. All of the above

11. The spleen is located in lower right thoracic cavity above the diaphragm.

- a) True
- b) False

11. The spleen is located in lower right thoracic cavity above the diaphragm.

- a) True
- b) False

12. The spleen's sinuses are filled with _____

- a) Blood
- b) Lymph
- c) Salts
- d) Water

12. The spleen's sinuses are filled with _____

- a) Blood
- b) Lymph
- c) Salts
- d) Water

13. Nodule of spleen contains?

- a) Red pulp and white pulp
- b) Hormone producing cells
- c) Glucose stored as glycogen
- d) Cells producing platelets

13. Nodule of spleen contains?

- a) Red pulp and white pulp
- b) Hormone producing cells
- c) Glucose stored as glycogen
- d) Cells producing platelets

14. White pulp contains mostly _____

- a) Lymphocytes
- b) Water
- c) Macrophages
- d) Red blood cells

14. White pulp contains mostly _____

- a) Lymphocytes
- b) Water
- c) Macrophages
- d) Red blood cells

15. Lymph is cleansed in lymph nodes and blood is cleansed in the spleen.

- a) True
- b) False

15. Lymph is cleansed in lymph nodes and blood is cleansed in the spleen.

- a) True
- b) False

16. The length of the spleen is approximately _____

- a) 12-14cm
- b) 5-10cm
- c) 20-25cm
- d) 30-35cm

16. The length of the spleen is approximately _____

- a) 12-14cm
- b) 5-10cm
- c) 20-25cm
- d) 30-35cm

17. _____ is the venous compartment of spleen and is important to break down RBC's.

- a) White pulp
- b) Red pulp
- c) Antigens
- d) Lymphocytes

17. _____ is the venous compartment of spleen and is important to break down RBC's.

- a) White pulp
- b) Red pulp
- c) Antigens
- d) Lymphocytes

18. Polycythemia is _____ RBC's.

- a) Decreased
- b) Death
- c) Increased
- d) Birth

18. Polycythemia is _____ RBC's.

- a) Decreased
- b) Death
- c) Increased
- d) Birth

19. Which disorder is characterized by the swelling of tissues due to the accumulation of lymphatic fluid?

- a) Lymphadenitis
- b) Lymphoma
- c) Lymphedema
- d) Leukemia

19. Which disorder is characterized by the swelling of tissues due to the accumulation of lymphatic fluid?

- a) Lymphadenitis
- b) Lymphoma
- c) Lymphedema**
- d) Leukemia

20. Which of the following is a common cause of lymphedema?

- a) Viral infection
- b) Allergy
- c) Blockage or damage to lymphatic vessels
- d) Autoimmune disease

20. Which of the following is a common cause of lymphedema?

a) Viral infection

b) Allergy

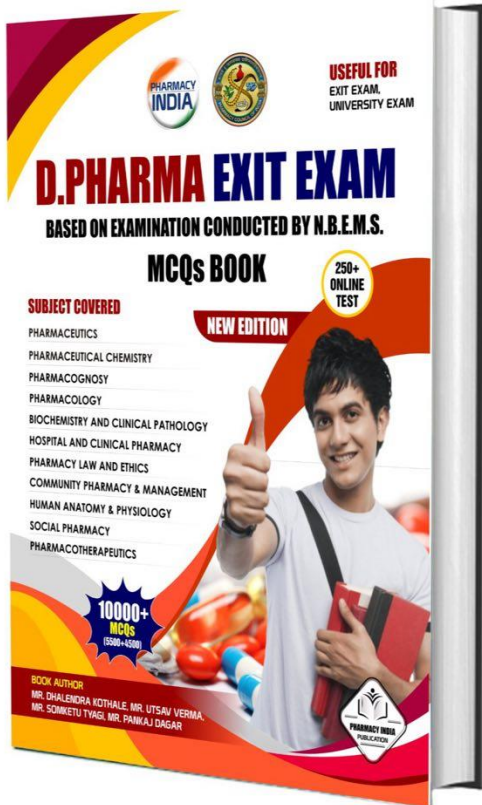

c) Blockage or damage to lymphatic vessels

d) Autoimmune disease
